

Taing

It may seem strange, that in a magazine which has been advertised as "all-Gaelic," these "thank you" pages should be in English. We feel, however, that so many of the people who gave donations towards the Establishment Fund of *Gairm* are themselves non-Gaelic speaking, that it would be discourteous of us not to acknowledge their support in a way which they can, themselves, understand.

When we launched the *Gairm* Appeal in January of this year, we were confident that it would meet with a very favourable reception. Our highest hopes have been justified. As the following list will show (and the list is by no means complete yet) donations have poured in to us from all corners of the world. At times, it was difficult for us to keep pace with the correspondence which a full acknowledgment of donations would have entailed, so we hope that those people who have received only formal receipts will understand our difficulties, and accept this public expression of gratitude as the sincere one it is meant to be.

We are aware that there must be many people who would have liked to have contributed to our fund, but who, through pressure of work or other factors, have forgotten to do so. May we remind them, and also those who have not to date heard of the appeal, that the Establishment Fund of *Gairm* will never close, and that any donations to it will be received with the same gratitude as we now extend to those listed below, and may we remind you too, that this is a purely voluntary effort on our behalf, and that help from you will be help to a genuine Gaelic endeavour.

Individual donations.
